

LANDSCAPE DESIGN GREEN FOR PEOPLE

We need to **design green spaces** thinking about the pleasure and the ease of the users

HORTICULTURAL THERAPY Green For All

- Cognitive-Behavioral therapy, physical therapy, engagement and social interaction
- Gardening activities
- Universal design

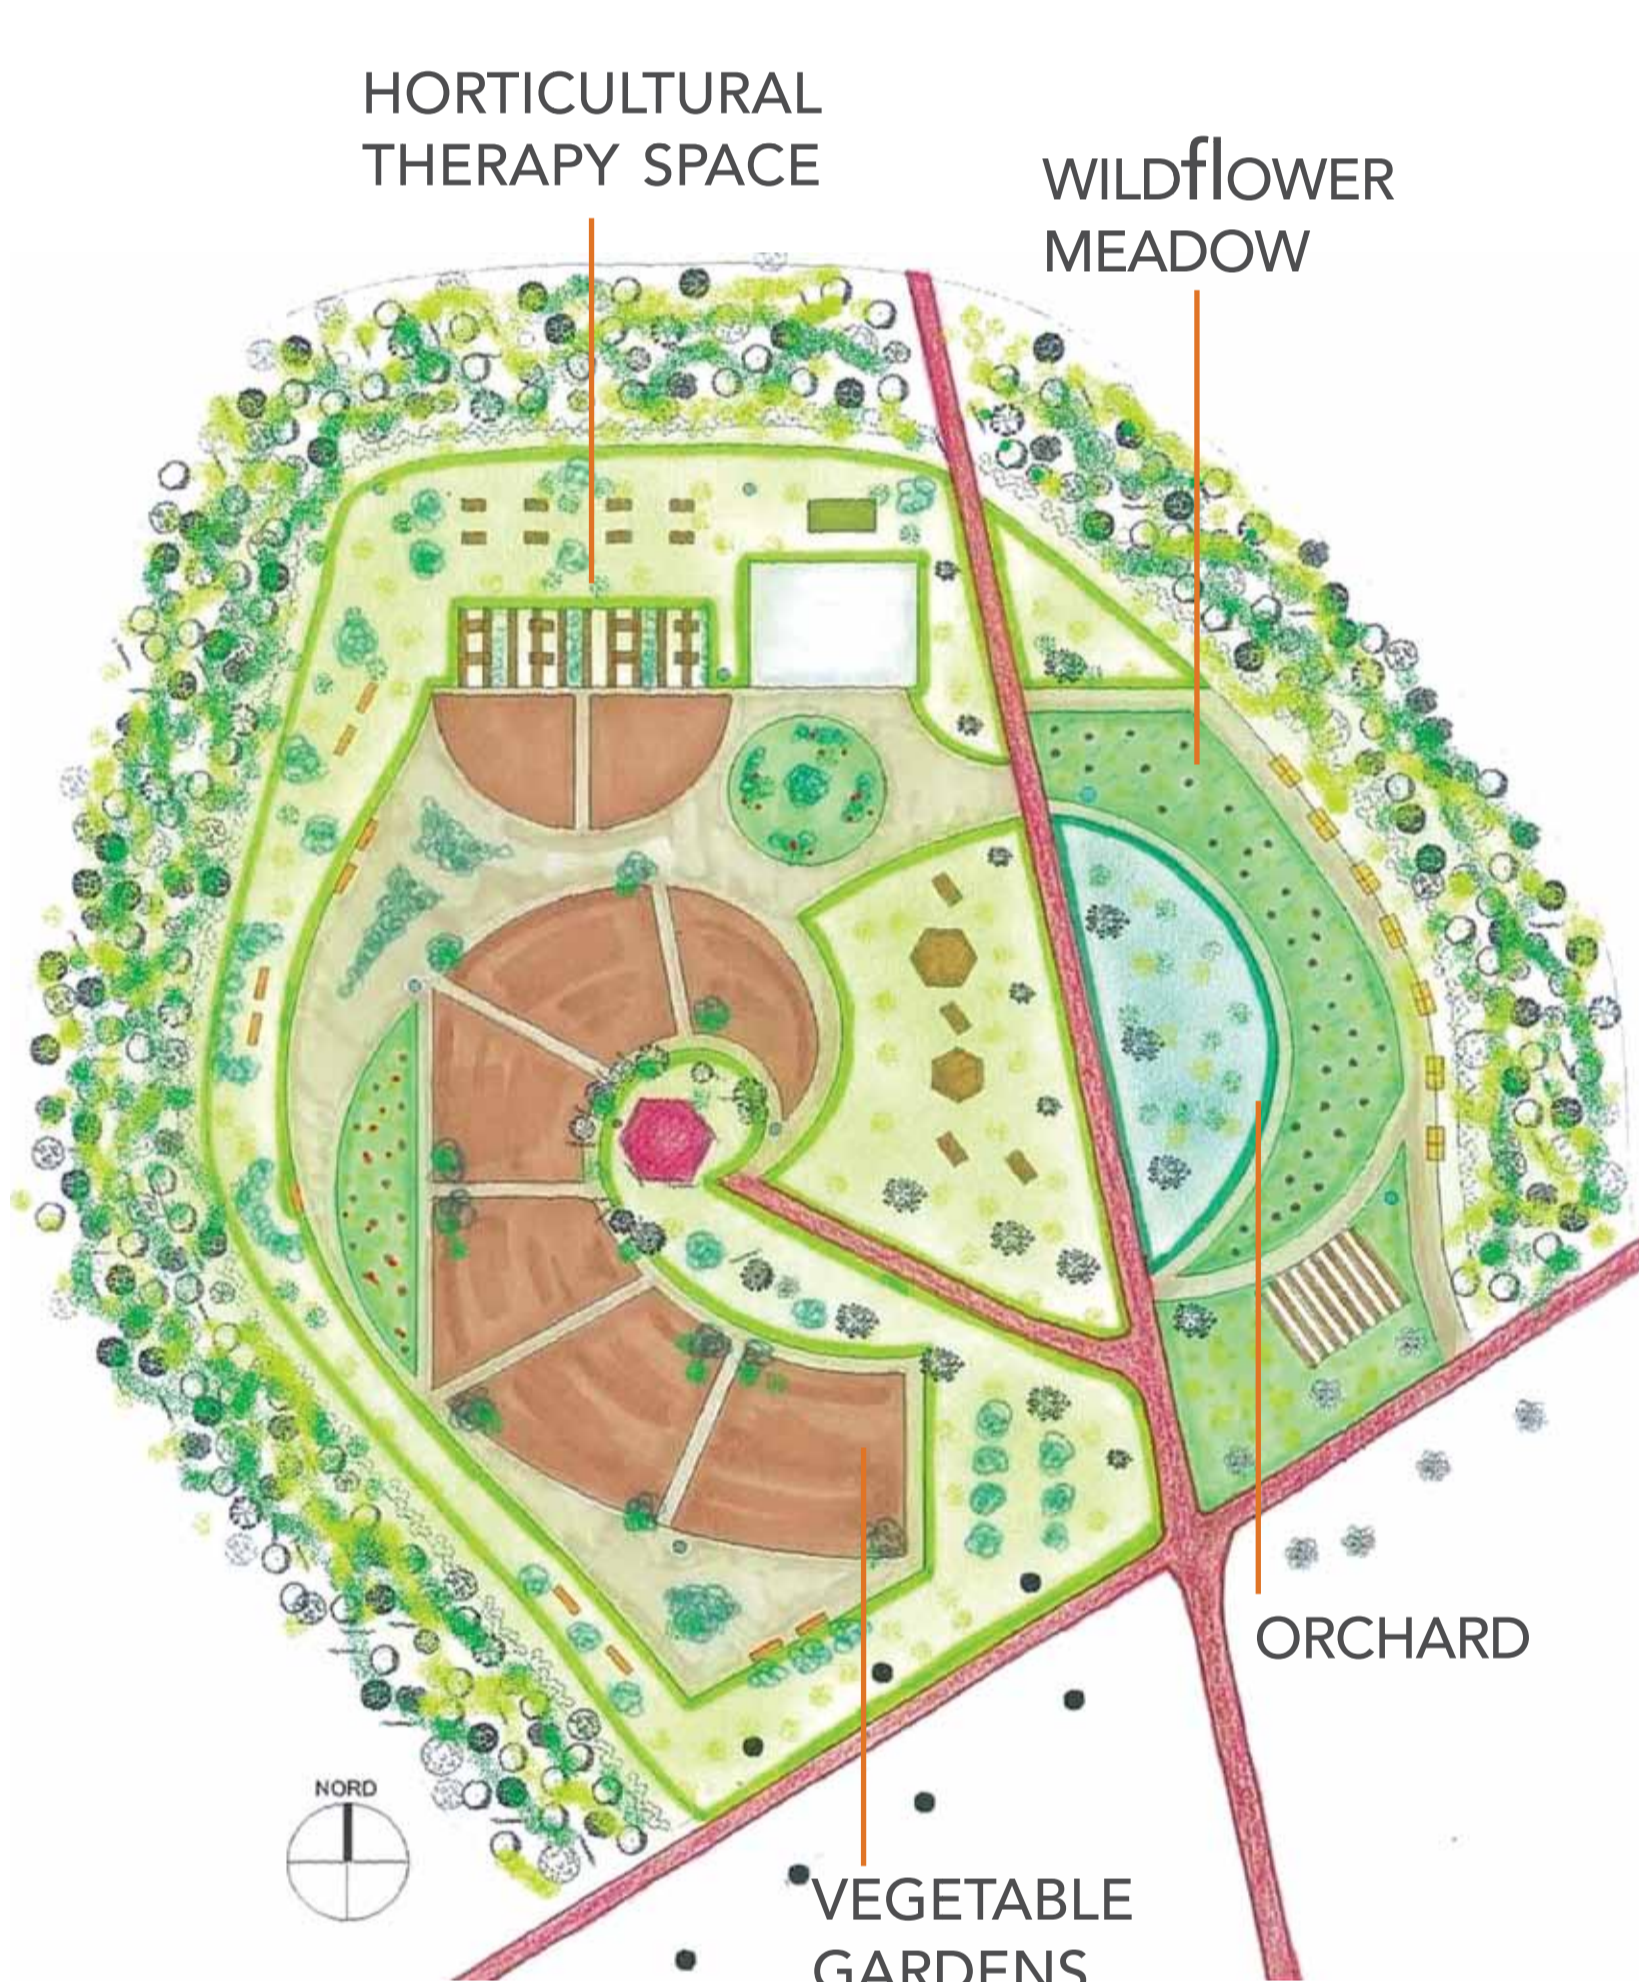

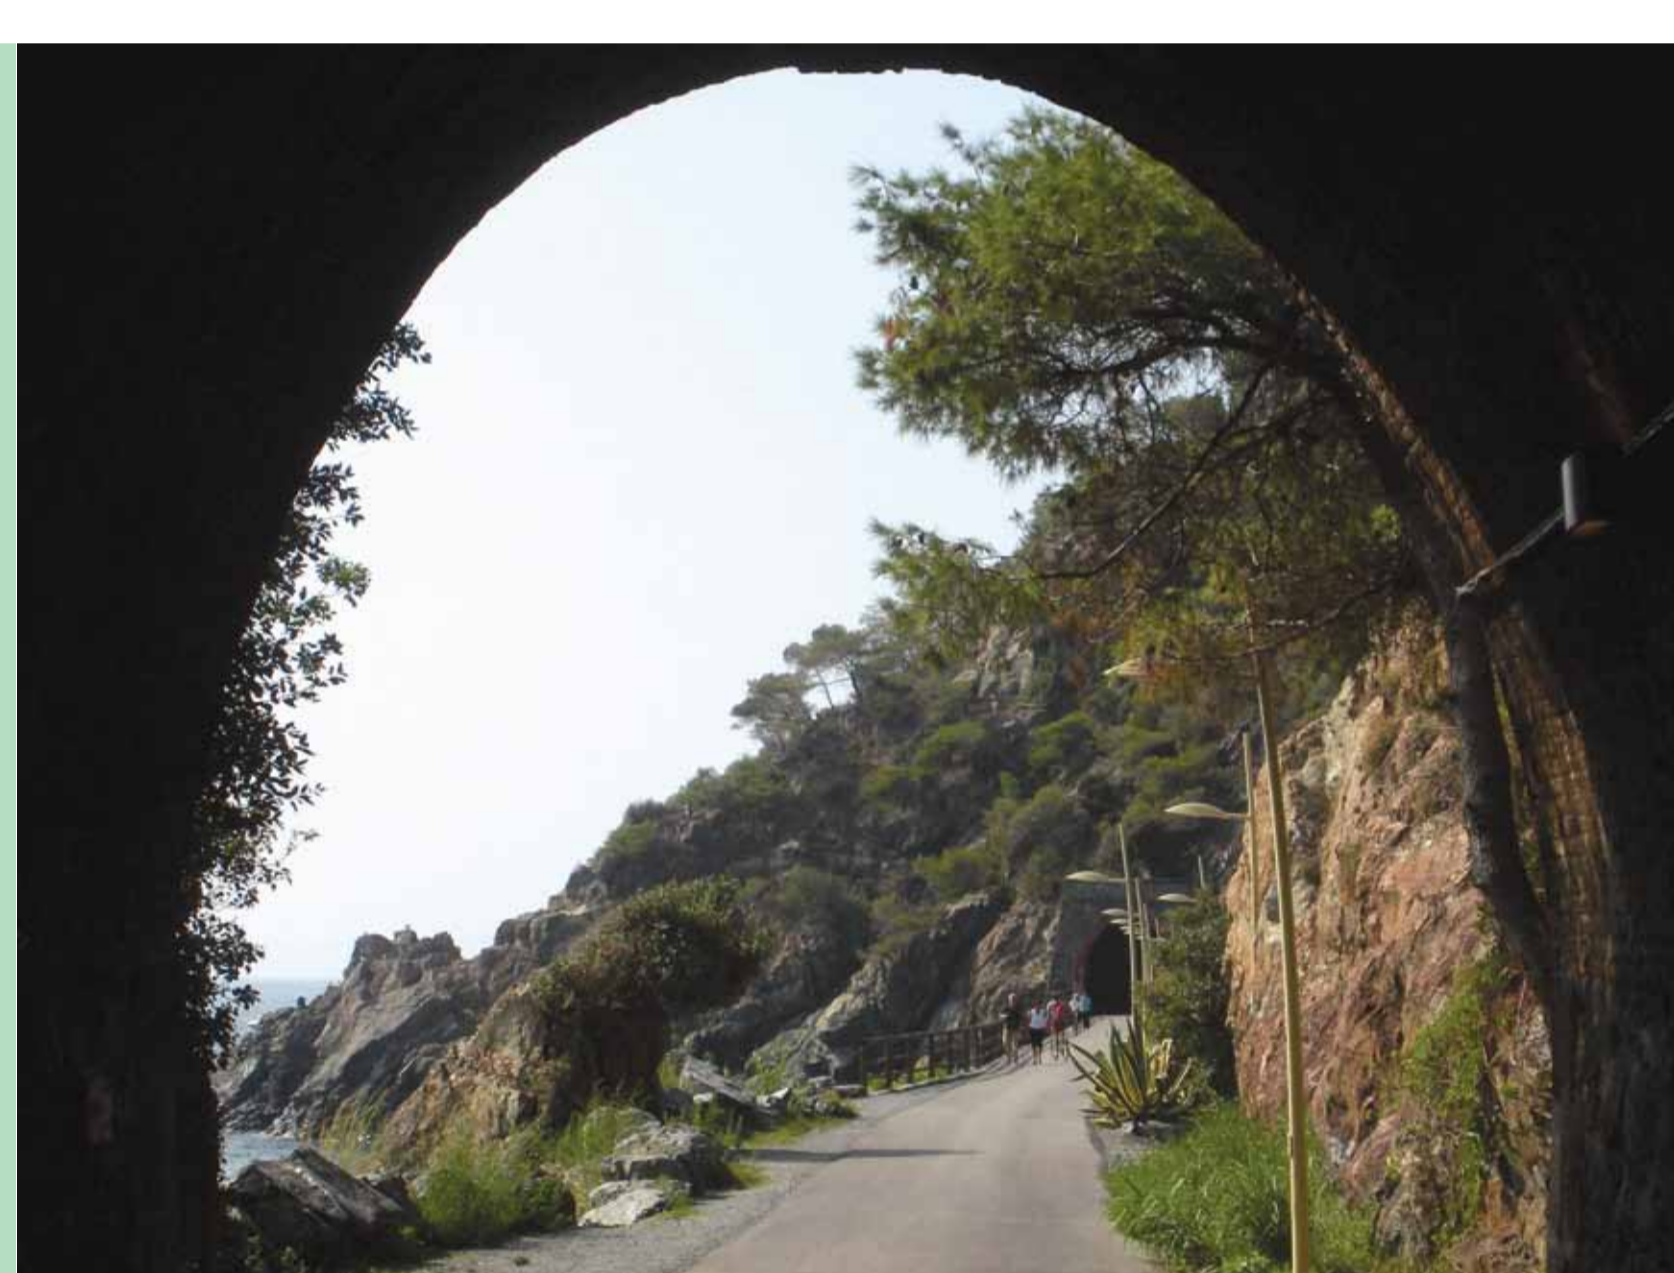

GREENWAYS Green For Families

- Recovery of disused infrastructures for new user needs
- Non-motorised itineraries
- Accessibility
- Quality of life

LANDSCAPE RESTORATION Green For Environment

- Disused industrial areas
 - Abandoned mines and quarries
 - Environmental restoration
 - Ecological network
- ▼ Restoration of an ancient sand quarry in the Lambro River Valley Park

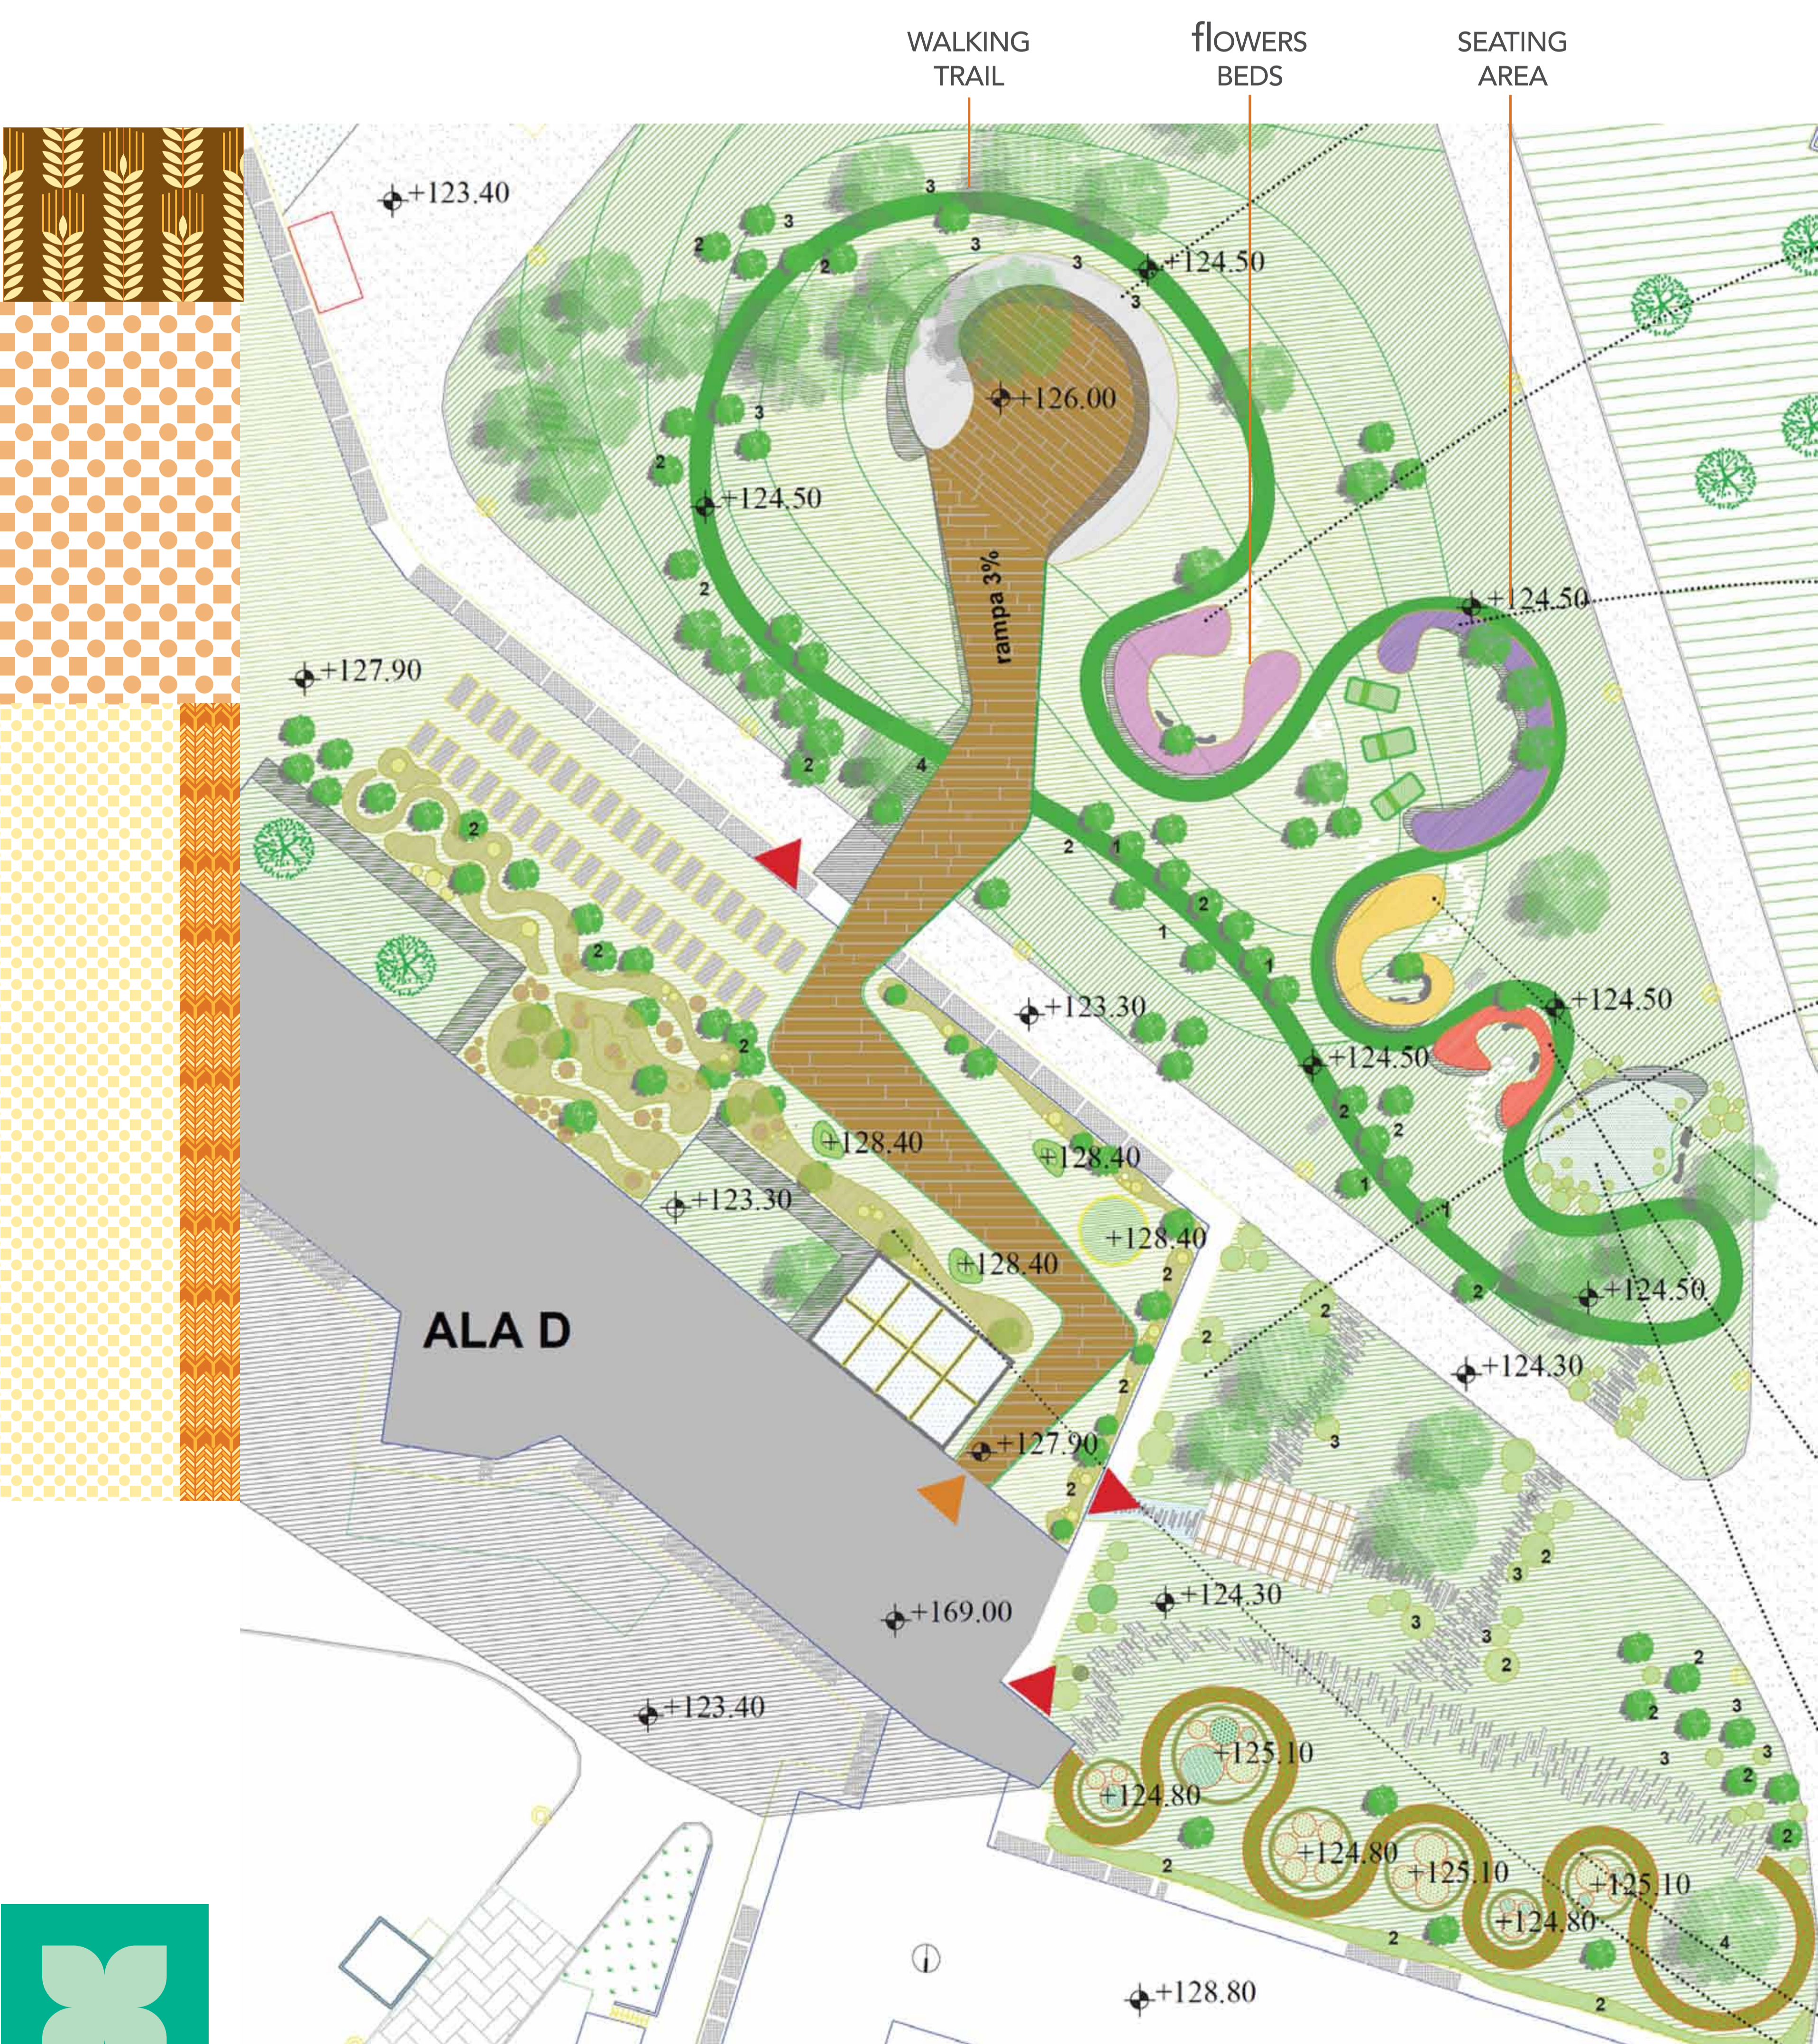

EDIBLE CAMPUS GARDEN Green For Students

- gardening and food processing
 - outdoor classrooms and sharing work
 - multi-functional green space
- ◀ Edible Campus Garden in Monza Royal Park (Valentina Vaglia degree thesis)

HEALING GARDENS Green For Health

- Design for whom? Patients and residents, visitors and relatives, staff
 - What is design for? contact with nature, freedom of movement and patients autonomy, social interaction
- ◀ San Carlo Hospital Healing garden (Milan), Project by students of healing gardens course
